

WE NEED YOUR INPUT!

QR Code:

The City of Kingston is creating a Pedestrian and Bicycle Master Plan (PBMP) that will inform our efforts to improve conditions for active transportation users, reduce vehicle congestion and emissions, and support a culture of health across the community. The Plan will provide Kingston with a community-based, data-driven blueprint for future decision-making and infrastructure investment, and position the community for seeking future funding opportunities.

Please follow the link or scan the QR code to an online crowdsourcing app to provide your input regarding biking and walking in the City.

App Link:

<https://tinyurl.com/KingstonPBMB>

This website allows community members to map where they often travel by walking or biking, provide recommendations for improvements to their routes (such as adding a bike lane or repairing a sidewalk), and to upload pictures.

HOW TO USE THE CROWDSOURCING APP:

Step 1: Click "Enter As Guest" to access the crowdsourcing app

Step 2: Select which type of entry you would like to submit

Step 3: Click "+ Start An Entry" to begin

Step 4: Select the location which you would like to comment on

Step 5: Fill out the fields with the information you would like to share

Step 6: Add a photo or video of the location (optional)

Step 7: Click "Report It" to submit your entry

THANK YOU
for participating in the
City's Pedestrian and
Bicycle Master Plan!
